

OISHIEKA MOITRA

AI-NATIVE FULL STACK DEVELOPER

Tampa 33647 | United States | 7274125034 | OMOITRA@GMAIL.COM
omi-moitra.github.io

PROFESSIONAL SUMMARY

- Curious, energetic Full Stack Developer who enjoys turning complex requirements into reliable web and mobile experiences.
- Builds across React, Node.js, Express, Mongoose/MongoDB Atlas, Java, Spring, and MySQL, with hands-on work in REST APIs, authentication, data modeling, validation, testing, and analytics.
- Approaches engineering as a disciplined problem-solving process: break down the system, trace edge cases, test assumptions, document decisions, and iterate until the behavior is dependable.
- Uses AI-assisted development thoughtfully to investigate problems, compare implementations, review code, reproduce defects, and validate changes before accepting them.

TECHNICAL SKILLS

Python; SQL; Java; Spring Boot; MySQL; Postman; DBeaver; Mongoose/MongoDB Atlas; React; React Native; Node.js; Express; HTML/CSS/JavaScript; Bootstrap; Tailwind CSS; JPA/Hibernate; Expo; Redux; RAG; Sentence Transformers; Ollama

CORE COMPETENCIES

Full-Stack System Design; REST API Design & Integration; Authentication & Authorization; Data Modeling & Validation; Testing, Debugging & Edge-Case Analysis; AI-Assisted Engineering; Project Management; Team Coordination; Creative Direction; Rehearsal Planning; Instruction & Coaching; Adaptability

PROJECTS

Ask My Notes

Python, RAG, CLI, Keyword/Semantic/Hybrid Retrieval, Sentence Transformers, Ollama, Pytest

- Built a local Python RAG CLI that chunks notes and ranks cited passages through keyword, semantic, or hybrid reciprocal-rank-fusion retrieval.
- Added local Ollama-based answering with bounded context, citation validation, evidence-based abstention, offline behavior, and 122 deterministic tests.

Rocket Elevators Website + Admin Dashboard

React, Node.js, Express, Mongoose/MongoDB Atlas, Chart.js

- Engineered a public company site and session-protected admin portal with agent CRUD, validated transaction entry, Express REST APIs, and Mongoose/MongoDB Atlas persistence.
- Built Chart.js reporting for agent totals, 14-day transaction trends, regional performance, and business share.

Rocket Food Delivery Backoffice

Java 21, Spring Boot, Spring MVC, Spring Data JPA, MySQL, JWT, Thymeleaf, MockMvc

- Implemented a layered Spring Boot API across controllers, services, repositories, and MySQL for a broad food-delivery domain.
- Added JWT security, DTOs, Jakarta validation, structured errors, native SQL, and JUnit/MockMvc coverage for API behavior and failure paths.

Rocket Food Delivery App

React Native, Expo Router, Java, Spring Boot, MySQL, JWT, AsyncStorage, Jest

- Built role-aware customer and courier experiences with Expo Router, protected navigation, AsyncStorage, and persisted JWT sessions.
- Integrated Spring Boot/MySQL workflows for restaurant discovery, ordering, history, courier status progression, account updates, and resilient UI states.

CodeBlogs

React, Redux/Thunk, Node.js, Express, Mongoose/MongoDB Atlas, Session Auth, Multer

- Co-developed a responsive React SPA with authentication, posts, nested replies, likes, profile images, themes, and online-user presence.
- Worked across Redux/Thunk, reusable UI, Express APIs, Mongoose/MongoDB Atlas models, validation, uploads, and the team's Git branch and pull-request workflow.

PROFESSIONAL EXPERIENCE

Law Clerk, Bay Area Legal Services

Tampa, FL | 2025 - 2026

- Deconstructed complex matters into requirements, dependencies, risks, and clear next actions using the same structured reasoning applied to software systems.
- Caught inconsistencies, missing terms, and edge cases, then documented findings and recommended corrective action.
- Researched statutes, regulations, and policies to resolve ambiguity and translate rules into practical guidance.
- Coordinated with internal teams and external parties to clarify requirements and move work to completion.
- Maintained traceable records and concise decision-support summaries in a detail-critical environment.

Summer Associate, Wells, Anderson & Race, LLC

Denver, CO | 2021

- Cross-checked multiple sources to surface inconsistencies and verify conclusions.
- Converted complex findings into precise, decision-ready written analysis.

Life Insurance Agent, Liberty National Life Insurance Company

Tampa, FL | 2019 - 2020

- Translated detailed policy terms and contractual obligations into clear guidance for clients.
- Applied regulatory rules consistently and maintained accurate, auditable transaction records.

Independent Contractor Tutor, Varsity Tutors

Tampa, FL | 2018 - 2020

- Designed structured learning plans, tracked progress, and adjusted the approach as new information emerged.
- Diagnosed knowledge gaps and translated complex concepts for learners with different needs.

EDUCATION

Professional Certificate in Full Stack Development, Codeboxx

St. Petersburg, FL | 2026

Juris Doctor (J.D.), University of Colorado Law School

Boulder, CO | 2024

Bachelor of Science (B.S.), Biomedical Sciences, University of South Florida

Tampa, FL | 2019

LANGUAGES

English; Hindi; Bangla; French
